Shots: Required

About:

THIS IS A COURTESY POST. Purrfect Friends Cat Rescue and its volunteers have not evaluated this animal in any way and can not be held liable for the current condition or future care of the animal. Please work with the specific contact in the posting to confirm if the animal is spayed/neutered, vaccinated, tested, etc. and for a complete description of the animal's personality and behavior traits. January 2020 - A while back I helped a friend by taking her cat that she could no longer keep, I didn't want to see the furry friend go to a bad situation. I have tried to find a forever home these past 6 years with no success and my allergies are finally getting the best of me. We have 2 cats that we have to keep contained an extra bedroom and feel it's not the best way for kitties to live. Furgie, the grey and white (around 6 yrs old) in the attached picture is the one I took in for a friend, I believe they adopted her from a rescue at a PetSmart in New Jersey. Alfie (around 8 years old), the ragdoll in the attached picture, was purchased as kitten, we cannot remember the name of the place. Both cats are healthy, have no behavioral issues, and very friendly with people, they get along well with each other. Please fill out purrfect friends application at <http://purrfectfriendscatrescue.org/adoptform.html> as they are helping us find homes. Contact us at 513-551-8197 or garryyagoo@gmail.com....
