## About:

The GREY'S ANATOMY puppies will be 8 weeks old on Mother's Day weekend and ready for furever homes! These 13 little Heinz 57-type mixed breed doctors are happy, healthy, playful and perfect. We have 7 girls (Cristina Yang, Miranda Bailey, Arizona Robbins, Lexie Grey, Izzie Stevens, Maggie Pierce and Callie Torres) and 6 boys (Richard Webber, Alex Karev, McDreamy, McSteamy, George O'Malley and Jackson Avery). Mama MEREDITH GREY is a black and tan mixed breed girl who appears to be part Basset Hound with a long body, shortish legs and paws that look like plates, part black and tan coonhound and who knows what else. When she's done nursing, mama will be a 50-55 lb. girl. Meredith Grey has a wonderful, gentle disposition, and the pups appear to have inherited her easygoing good nature. Daddy is a mystery but is likely some type of larger breed dog. Their ears are getting long and houndy, some have bloodhound-type wrinkles, some appear to be part lab, some look like they are part boxer. So basically, Heinz 57 varieties. It's impossible to estimate full-grown adult size without seeing daddy or knowing their breed mix, but these pups will likely be north of 55 lbs. The Grey's Anatomy puppies must go to homes with physically fenced yards. They are too young to be trained on electric fences. The pups must go to homes within a 2 hour drive of PetSmart Eastgate in Cincinnati. They must come back to the Eastgate area twice in order to compl...
