About:

Ladybug is a lovely little 6 months old gem. She is a little shy at times but will climb up on your lap and cuddle. She would probably do best in a calm loving home without large dogs and small children. She loves her buddy cricket and it would be lovely if they went together. She is an indoor kitten only and we do not allow our animals to be declawed. It is unnecessary and cruel. If you are interested in meeting her fill out our application at dreamhouserescue.org
