About:

Princess Leia is a 6 month old playful lovebug of a puppy looking for a furever home. She's a mountain cur mix with a beautiful chocolate brindle coat. Princess Leia is a foster favorite, she loves to be close to, or sitting on or laying on her people. She appears to be housebroken. Princess Leia is full of puppy playfulness and needs a little work on her manners. She is dog friendly and ignores cats. Princess Leia is currently 32 lbs. and will probably be 40-45 lbs when full y grown. She would love a furever home with a fenced yard where she can run and play and burn off her puppy energy. Princess Leia would be fine as an only dog as long as she gets plenty of attention from her humans. She would make a wonderful family dog. If you'd like to meet Princess Leia, fill out a foster-to-adopt application at dreamhouserescue.org. All of our adoptable dogs go to prospective homes for a one-week trial foster-to-adopt period to make sure the dog and home are the right fit before an adoption is finalized. We only adopt dogs into homes where all current pets are spayed/neutered. We do check veterinary references to make sure adopters are compliant with standard veterinary care (vaccines, heartworm testing, etc).
